Wah Yan is urgently looking for funds to finish some urgently needed works on the re-development of the school buildings.

We have been thinking of some forms of contributions which could help the school but are of less pain to ourselves.

The donation of a class room is \$400,000.00 This could be contributed by one donor or 2 (\$200,000 each) or 4 (\$100,000 each) or 8 (\$50,000 each). A plaque with the name(s) of the Donor(s) will be displayed outside the donated classroom.

On the other hand, we can each become a Gold Donor in the form of 10 annual contributions of \$10,000 each. A Gold Donor Plaque will be displayed in a prominent position in the school.

\$10,000 each year is translated to under \$1,000 per month and there is no legal binding obligation to donate further if you don't feel like it after the initial \$10,000.

We urge each of you to become a Gold Donor first and to find a couple more Gold Donors and if each of them should find another couple more, etc., very soon we shall have a hundred Gold Donors (if all pay annually, that translates to \$10,000,000 in 10 years time).

Since this appeal will continue forever, even if there were defaulters, the deficits should be made up by new donors.

We are confident that with help from Alumni, especially from leaders like yourselves, the School will achieve its aim of building new premises for a 21st Century education for the next generation of Wahyanites.

Yours sincerely,

Sir Gordon Wu
