

Dear Fellow Wahyanites,

Invitation to WYCHK Mentorship Program

The WYCHK PSA Mentorship Program was first launched in March 2007. We are pleased to see it being nurtured in the hands of those who have supported and participated in the program.

The objective of the Mentorship Program is to provide a platform among Wahyanites of different generations to interact through a mentor-mentee relationship which is built on respect, caring, sharing, understanding and trust. Through this interaction, mentors, as elder brothers, shall positively influence their younger Wah Yan brothers in realizing their personal and career goals while gaining new perspectives from the mentees. In this way, the bonding of the Wah Yan Family can be further cemented.

If you are prepared to commit in the coming one year, we would like to extend our warm invitation to you to join us as mentors or mentees. You are also encouraged to recommend our program to our fellow Wahyanites who may be interested to join. Details of the program and application forms are uploaded onto the PSA website <http://www.wahyan-psa.org> . If you want to know more, please feel free to contact the following:

Willie Cheng (wilcheng@netvigator.com)

Thomas Tsang (tsanghof@netvigator.com)

Ryan Choy (ryanchoy@hotmail.com)

We look forward to your participation in our program.
