

Wah Yan College Hong Kong School Development Project Board

Wah Yan College School Development Project 2003

This year 2003, we have decided to begin a fund-raising campaign for the redevelopment of Wah Yan College Hong Kong. Some people may think that we are foolish at this time of economic difficulty to try to raise funds. However we have faith in God and courage to begin, knowing the great need for the school's redevelopment and the generosity of so many people, who wish to help this worthy project, in small ways or big according to their capacity.

The present school was built in the early 1950's and is now in need of constant maintenance which is quite costly. Besides, the school needs updating with better teaching facilities. We also wish to provide additional classrooms in order to make it possible to have five classes in each form up to Form 5. Then we can have a "through-train" and provide a place for all students in the Primary School.

This is our future goal and plan. We need the generous help of many people to achieve this goal and make Wah Yan a school worthy of the new millennium. Help us, in whatever way you can, to give a better service to the next generation.

Wishing you good health and God's many blessings during this New Year 2003.

Fr. A.J. Deignan, S.J.
Co-chairman

Dr. Patrick P.K. Wu, J.P.
Co-chairman
